

Assignment 7

1. Explain the Transport Layer and its functionalities.
2. Explain Transport Services.
3. Explain Congestion Control on Transport Layer.
4. Explain the features and differences between TCP and UDP.
5. Explain UDP (User Datagram Protocol).
6. Explain TCP (Transmission Control Protocol).
7. Explain congestion, describe close loop solution for congestion control.
8. Explain elements of transport protocols.
9. Explain Performance Issues in Transport Layer.
